Standard R+E

Food Contact Regulations

This product is suitable for food contact and complies with Regulation (EC) No. 1935/2004. Furthermore, nitrile rubber gloves comply with Regulation (EC) No. 10/2011 and German Recommendation, BfR No. XXI, and paper products comply with German Recommendation, BfR No. XXXVI.

AIRFLEX* Technology

AIRFLEX*

Compression

KIMBERLY-CLARK PROFESSIONAL* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX* Fabric. Compressed AIRFLEX* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

Trade

ISO 14001

ISO 14001 is an international environmental standard. Designed to help organisations ensure that operations comply with environmental laws, and; major environmental risks and liabilities are properly identified, minimised and managed.

ISO 9001

This gives the requirements for quality management systems, is now firmly established as the globally implemented standard for providing assurance about the ability to satisfy quality requirements and to enhance customer satisfaction in supplier-customer relationships.
